Ggaba Road

An architectural rendering of a multi-story building with a classical facade. The building features three levels of arched windows, with the top level having a decorative pediment. The ground floor is characterized by three large arches supported by columns. A balcony with a white railing is visible on the second and third floors. The building is set against a blue sky with light clouds. To the left, a brick building is partially visible. In the foreground, there are trees, a blue car, and streetlights. The scene is illuminated with warm, golden-hour lighting.
